Fax: _____

RBQ #: _____

NEQ #: _____

8. COST ESTIMATION:

\$ _____

9. SIGNATURE

Signature : _____

Date : _____
(dd-mm-yyyy)

DOCUMENTS TO BE PROVIDED

Layout plan

executed on an exact scale of the building (s) on the proposed site, showing the relevant information, including:

- the cadastral identification of the lot, its dimensions and area, an indication and description of any existing servitudes;

- the distance between any watercourse or lake and the projected buildings, measured from the natural high water line;

- the excavation levels, the level of the ground floor and the proposed leveling, relative to the actual elevation of the nearest street, shown by elevation grades or lines;

- excavation levels of the street and sewers adjacent to the lot, if applicable;

- the location and floor dimensions of each proposed building and existing buildings on the same site, if applicable;

- the distances between each building and the lines of the site;

- the landscaping of the site before the work, the areas to be cleared, to be excavated, the trees to be conserved as well as the location of any hedges, trees and shrubs, if applicable;

- the location of the septic system and the distances from the wells on the site and neighboring lots, if applicable;

- the location of driveways and parking areas;

- drainage of surface water, if applicable;

- the location of electrical and telephone lines, and stone walls, if any;

- the date, title, astronomical north, scale and names of those who collaborated in the project preparation;

Construction plans

The elevation plans, sections, sketches of the building(s) and specifications required by the designated officer so that he/she can have a clear understanding of the construction project to be erected; these plans must be drawn on an exact scale; the plans must be sufficiently precise. This paragraph does not apply to agricultural buildings as defined in this Regulation

Foundation plans
